

# Dust protection for angle grinders

## Change:

Dust filters are available for various angle grinders.

Please refer to the table below to see whether there is a filter for your model. Please note that there are two different filter variants, for cordless angle grinders and corded angle grinders:

## Affected machines:

Machine type	Design type		
		31324000144	31324000373
CG 13-125	722280	✓	✗
CG 13-150, CG 17-125	722281	✓	✗
CG 17-150	722282	✓	✗
CG 17-125 Inox	722283	✓	✗
CCG 18-125-7	712207	✗	✓
CCG 18-125-15	712209	✗	✓
CG10-125	722279	✗	✗

## Reason for change:

In some cases, dust can penetrate the machine and cause damage. To prevent this problem, Fein also offers a retrofittable dust filter as an accessory.

## Recommended action:

The dust protection ensures a longer service life for the angle grinder. The filter must be removed and cleaned regularly. The dust protection filters can be purchased from your Fein dealer or via the Fein spare parts catalogue.
