

VARIO M20 taperer for through holes

Long service life, thanks to high material strength (64 HRC), special cutting geometries suited to impact wrench/drivers and a TiAlN (titanium-aluminium-nitride) coating. The bits experience low levels of wear and friction as well as being heat-resistant to 800 °C. Thanks to the high speeds and number of blows, they can therefore be used in steel up to 900 N/mm².|Perfectly suited to the following materials: non-alloyed and alloyed steels up to 900 N/mm², aluminium, brass.

Product number: 6 31 10 032 01 0

Technical data

TECHNICAL DATA

Material	HSS
Strength	64 HRC
Coating	Titanium Aluminum Nitride (TiAlN)
Heat resistance	max. 800°C
L	100 mm
Spiral length	37 mm
Tool Holder	VARIO Bit Shaft
Tapping	M 20
Max. Material thickness	40 mm
Weight	0.13 kg

Suitable for the following tools

- > ASCD 18-300 W2 AS Ready-to-use Set
- > ASCD 18-300 W2 AS Impact-tapping Set
- > ASCD 18-1000 W34 AS Set 8 Ah ProCORE

Application examples
